PHASE 1 vs PHASE 2

Wolfx Trader Signal OG Accounts from Phase 1 will still have complete access to their investment portals along side with the revenue left over from Phase 1. We have implemented some new policies along with new ways for investors to automatically earn commissions outside the platform. In Phase 2, it's about providing utility with max profits but yet still making the platform and our ecosystem stable. as possible.

HOW DOES IT ALL WORK?

We have 8 standard investment plans that are packaged for all type of investors. If you invest in any of the packages your investment will go towards advertising platform for a specified period of time.

This includes YouTube Video advertisement, Telegram postings and occasional vertical video shorts. Our top line investors will receive their ROI after investment duration has elapsed as well as utility that will guarantee them a 5% - 10% commission on affiliate commissions.

HOW DOES IT ALL WORK?

Each Real Estate investor will have 2.5% ownership within that project until the end of the project. However, if a project rugs that Real Estate investor will still receive their 85% ROI until their year campaign is completed.

If you are a Premium plan investors you will not receive any utility ownership of the commission coming in from the projects. You simply will gain regular ROI Weekly for a year.
